3. A.Yadagiri, Executive Engineer, Irrigation Division No.1, Mahadevpur and concerned officers.
4. CH.Sudhakar, Deputy Tahsildar, Special Deputy Collector, JS Bhupalpally.

@ @ @

The Purpose of the meeting is to discuss the pending issue prevailing in the Sy. No. 41 of Garepally Village of Kataram Mandal for the purpose of formation of new tank under KLIS with Irrigation department in Jayashankar Bhupalpally District.

The District Collector, Jayashankar Bhupalpally has enquired the Special Deputy Collector, LA & Irrigation Projects, Jayashankar Bhupalpally whether the complete information regarding the issue was obtained or not. The Special Deputy Collector, LA & Irrigation Projects, Jayashankar Bhupalpally informed that awards and the acquittances were missing. There is no complete information available at the Special Deputy Collector, LA & Irrigation Projects office.

The District Collector, Jayashankar Bhupalpally has asked the Special Deputy Collector, LA & Irrigation Projects, Jayashankar Bhupalpally whether any measures were taken to trace out the information like approaching the O/o District Collectorate Karimnagar as the file was earlier handled in the District of Karimnagar or the information available with the requisition department is collected and analyzed.

The Special Deputy Collector, LA & Irrigation Projects, Jayashankar Bhupalpally informed that they have not contacted the O/o of District Collector, Karimnagar for information. Then the District Collector, Jayashankar Bhupalpally has instructed the Special Deputy Collector, LA & Irrigation Projects, Jayashankar Bhupalpally to address a letter to O/o Collectorate Karimnagar for the record. Meanwhile the Executive Engineer, Bhupalpally has informed that the record for Ac 168.00 Gts is available out of Ac 181.00 Gts.

After hearing them, the District Collector, Jayashankar Bhupalpally made a few points to work on in order to gather the information and analyze it to prevent further delay and close the issue.

- 1) Instructed the Tahsildar Kataram to take the data from Manual pahani from the year 2000 to 2017 (before the acquisition and after acquisition) and to prepare a comparative statement of the persons in Sy. No. 41 along with their extents. This can be compared with the information available with the Irrigation department for which payment was made to (85) beneficiaries as stated by them. If the names in the pahani match with the names for which the payment was made then, it can be treated as genuine. If the names in the pahani do not match with the names for which the payment was made then, it can be concluded as not genuine.

- 2) Instructed the Irrigation department to find out how the payment was made to the (85) beneficiaries. If payment was made through the Bank, then investigate from which bank the then official has made payment and approach the bank to get the transaction details of the particular Account. If the payment is made through the PAO office, enquire about it through the token number which was generated at the time of payments from their payment registers.
- 3) Collect the information about the people who are objecting to the work for laying of substation. Whether their names are in the pahani or they have any link document or any other valid document with respect to the Sy. No or simply objecting the work. The persons who are genuinely objecting to the work as they were not paid compensation can be traced out.
- 4) How many persons are original assignees having clear titles? The persons who received payment and sold to the third person after acquisition. The persons purchased the land before acquisition and had proper documents. The persons who are reflecting in Dharani and receiving Rhythu Bandu scheme can be found out.
- 5) As the total RSR extent of the Sy. No. 41 is Ac 301.00 Gts and the land acquired for FTL is Ac 181.00 Gts there might be cases that the actual enjoyer whose land is affected under FTL have not received the compensation and another person whose extent is not affected under FTL might have received the compensation.

The analysis should be done properly keeping in view of the above points so that the information about the genuine persons who received compensation and who have not received compensation and the same are objecting to the substation work or some fake persons are intentionally trying to make nuisance.

In the end, the District Collector, Jayashankar Bhupalpally has finally instructed all the concerned officers to adhere to the instructions and take steps to gather the information and make analysis within a week time.

With these, the meeting has been concluded.

DISTRICT COLLECTOR
JAYASHANKAR BHUPALPALLY

To
All the officers concerned.
Copy to CC/Collector/Joint Collector, Jayashankar Bhupalpally.
